

The **National League for Nursing (NLN)** offers the **Nursing Acceleration Challenge Exam (NACE)** to facilitate educational mobility by providing educators with an instrument for diagnostic evaluation of the nursing knowledge of individuals seeking advanced placement in a nursing program.

The **NACE** is:

- Designed to evaluate previous learning and experience.
- Intended to assist faculty to establish credit and to make placement decisions about students already selected for admission to the program.
- Information from the NACE can be used as one component of the total evaluation of each individual.
- The **NACE** includes five content areas.
- Programs may elect to have students take any one of these exams. The test items are multiple-choice and alternative item format used in the NCLEX® exams. Each section of the exam consists of operational items that have undergone content and sensitivity reviews.

Calculator And Whiteboard Are Included In The Exam
No additional implements are permitted
